

Property Addressing

[Property Addressing Ordinance](#) [1]

Report Missing, Damaged or Unreadable Signs by completing [the form below](#) [2] and emailing it to Cory Nelsen at cnelsen@hendersoncountync.gov [3] or call Facility Services at (828) 697-4840.

Every Home, Business, and Structure Needs an Address. Even if you rely on a post office box for mail delivery it is important that you... [Read more](#) [4]

Your physical address is not the same as your mailing address for the County unless you have requested it! To have your mailing address changed, call the Henderson County Tax Assessor's Office at (828) 697-4870. The Planning Department CANNOT change mailing addresses.

Property Addressing plays key role in locating emergencies. Citizens of Henderson County expect that when they dial 9-1-1, emergency response personnel will be dispatched quickly to their location. This expectation is met because of the constant work of County personnel across numerous departments and divisions. The County Property Addressing Division plays a significant role in improving emergency service responses by constantly working to improve the accuracy of street and addressing data...[Read more](#) [5]

The Property Addressing Division performs administrative planning and support for the enhanced 911 emergency telephone number, which has become a national standard. Personnel are able to pinpoint exact locations with the distance-based addressing system assigning unique street addresses to all structures in Henderson County. In the event of an emergency, pertinent information will display immediately and automatically to a dispatcher, greatly improving response time. Property Addressing issues property addresses, locates points to clarify Geographic Information System data, and coordinates individual addresses to match GIS, USPS, and AT&T data.

Property Addressing staff is available via phone.
